10 years of IST Austria

IST Austria was inaugurated in June 2009 with four professors. Today, almost ten years later, the Institute employs about 700 people, among them 34 ERC grantees out of 51 professors, performing cutting-edge research in biology, physics, mathematics, and computer science. On the occasion of the 10th anniversary of the opening IST Austria will organize a festive event.

We would like to invite you to celebrate with us on the evening of June 4, 2019!

REGISTRATION UNTIL MAY 28, 2019
