Beyond the spherical sup-norm problem

Péter Maga (Rényi Institute Budapest)

Host: Tim Browning

I will present a power-saving estimate in the restricted sup-norm problem of Maass forms for $SL_2$ over the Gaussian integers, assuming bounded spectral parameter and increasing dimension of the associated $SL_2$-type. Joint work with Valentin Blomer, Gergely Harcos and Djordje Milievi.

Thursday, October 14, 2021 01:00pm - 02:00pm
IST Austria Campus Heinzel Seminar Room (I21.EG.101), Office Building West

This invitation is valid as a ticket for the IST Shuttle from and to Heiligenstadt Station. Please find a schedule of the IST Shuttle on our webpage: https://ist.ac.at/en/campus/how-to-get-here/ The IST Shuttle bus is marked IST Shuttle (#142) and has the Institute Logo printed on the side.
