Rational points in families of varieties

Daniel Loughran

University of Bath

Host: Tim Browning

Together with Efthymios Sofos and Nick Rome, I have recently formulated a conjecture on counting the number of varieties in family which are everywhere locally soluble. I will explain this conjecture and some known cases, including some work in progress with Julian Lyczak concerning families over the projective line.

Thursday, June 22, 2023 01:00pm - 03:00pm

Heinzel Seminar Room (I21.EG.101), Office Building West, ISTA

This invitation is valid as a ticket for the ISTA Shuttle from and to Heiligenstadt Station.

Please find a schedule of the ISTA Shuttle on our webpage:

<https://ista.ac.at/en/campus/how-to-get-here/> The ISTA Shuttle bus is marked ISTA Shuttle (#142) and has the Institute Logo printed on the side.
