Frontiers of Circuit QED and Optomechanics (FCQO18)

Host: Johannes Fink, Shabir Barzanjeh

The International Conference on Frontiers of Circuit QED and Optomechanics 2018 will be held at the Institute of Science and Technology Austria (IST Austria), on **February 12-14, 2018**. The conference is organized by IST Austria and chaired by Dr. Shabir Barzanjeh and Prof. Johannes Fink from the Quantum Integrated Devices lab.

FCQO is designed to attract and engage the best researchers in the field. World renowned leaders in the fields of quantum opto- and electro-mechanics, circuit quantum electrodynamics, and optical to microwave quantum transduction will speak, and a number of top young researchers (PhD students, postdocs and junior group leaders) will be selected from the pool of submitted abstracts to give a contributed talk and present their posters.

We aim to bring together the leading scientists in Circuit QED, Electro/Optomechanics and hybrids systems to present both theoretical and experimental aspects, with a strong emphasis on the most cutting-edge experimental progress. We hope to create an interactive platform for the exchange of new ideas and we would like to inspire a conference series on the topic.

**Mon, February 12, 2018 08:00am - Wed, February 14, 2018 10:00pm**

IST Austria Campus Central Building (Raiffeisen Lecture Hall)

This invitation is valid as a ticket for the IST Shuttle from and to Heiligenstadt Station. Please find a schedule of the IST Shuttle on our webpage (note that the IST Shuttle times are highlighted in dark green): http://ist.ac.at/fileadmin/user_upload/pdfs/IST_shuttle_bus.pdf The IST Shuttle bus is marked IST Shuttle (#142) and has the Institute Logo printed on the side.
